

## Ideation Phase

### Define the Problem Statements

Team ID	PNT2022TMID03630
Project Name	Emerging Methods For Early Detection Of Forest Fires

<b>Problem Statement (PS)</b>	<b>I am (Customer)</b>	<b>I'm trying to</b>	<b>But</b>	<b>Because</b>	<b>Which makes me feel</b>
PS-1	Forest worker	Collect Wood	Forest fires occurs	During summer or even due to human activities	Many tall trees are damaged and animals are killed when they are struck in between
PS-2	Forest officer	Save animals and trees	Mostly unable to do so	Because of high temperature and dry Wood and even Thunder attacks during rainy season	Not satisfied with my job
PS-3	Tourist	Travel through forest	I am feared of forest fires	I am very much interested in viewing middle forest wonderful locations	Unsecure most of the times
PS-4	Goods carrying Driver	Pass through forest	Some areas where I usually travel is well known for some fire accidents	We need to travel long distance	Think about crossing that forest in a safe manner
